AI in Auditing (4th March 2025) *Resource Persons:* Mr. Raghav, CA. Balajee

"**AI in Auditing**" on **4th March 2025**, featuring distinguished resource persons **Mr. Raghav** and **CA. Balajee**. The session aimed to educate students on the growing role of artificial intelligence in the auditing profession and its impact on financial analysis, fraud detection, and compliance procedures.

During the seminar, the speakers elaborated on how AI-driven tools are revolutionizing the audit landscape by enhancing accuracy, efficiency, and risk assessment. They provided real-world examples of AI applications in forensic auditing, automated data analysis, and predictive modeling. The interactive session allowed students to explore how AI minimizes human errors, streamlines compliance checks, and facilitates decision-making in financial audits.\

Startup Revolution (4th March 2025) *Resource Person:* Mr. Peter Sahayaraj

"**Startup Revolution**" on **4th March 2025**, with **Mr. Peter Sahayaraj** as the esteemed resource person. This session was designed to provide students with deep insights into the dynamic world of startups, entrepreneurship, and innovation-driven business models.

Mr. Peter Sahayaraj shared his expertise on the evolving startup ecosystem, highlighting key factors such as idea validation, funding strategies, scalability, and the role of technology in modern businesses. He elaborated on real-world case studies of successful startups, discussing the challenges faced by entrepreneurs and the strategies that led to their success. The session also covered emerging trends in venture capital, government policies supporting startups, and the significance of financial planning in sustaining new ventures.

Fintech - Skills for the Future (4th March 2025) *Resource Person:* Mr. Anand Pattabiram

The **Fintech - Skills for the Future** session, held on **4th March 2025**, was an insightful and engaging program aimed at equipping students with essential knowledge of financial technology and its growing impact on the industry. The session was conducted by **Mr. Anand Pattabiram**, a renowned expert in fintech and digital transformation, who provided an in-depth overview of emerging technologies shaping the financial sector.

The session began with an introduction to **fintech innovations**, highlighting key areas such as **blockchain technology, artificial intelligence in finance, digital payments, robo-advisory services, and open banking**. The resource person emphasized the importance of **data analytics, cybersecurity, and regulatory compliance** in fintech, outlining how these aspects are crucial for the future workforce.

Financial Modelling (4th March 2025) *Resource Persons:* Mr. Pandi Kumar, Ms. Kiruba Nagini

The **Financial Modelling** workshop, conducted on **4th March 2025**, was an intensive and hands-on session aimed at equipping students with practical skills in constructing and analyzing financial models. The session was led by **Mr. Pandi Kumar** and **Ms. Kiruba Nagini**, both experts in financial analytics and corporate finance.

The workshop commenced with an introduction to **financial modelling fundamentals**, covering essential concepts such as **forecasting, valuation techniques, risk analysis, and scenario planning**. The resource persons explained the significance of financial modelling in **investment banking, corporate finance, and decision-making processes**, emphasizing its real-world applications.
