Career Enhancement Program (9th December 2024) *Resource Person:* Mr. Punit

The **Career Enhancement Program** was conducted on **9th December 2024** with **Mr. Punit** as the distinguished resource person. The primary objective of this session was to equip students with essential career-building skills, industry insights, and employability strategies to prepare them for the competitive job market. Mr. Punit emphasized the importance of skill development, resume building, interview techniques, and workplace adaptability. He provided valuable insights into emerging career opportunities in the accounting and finance sector, guiding students on how to align their academic learning with industry expectations. The session also covered the significance of networking, professional certifications, and continuous learning for long-term career growth. Through interactive discussions and real-world case studies, students gained practical knowledge on career planning and strategies to enhance their professional prospects. The session witnessed enthusiastic participation, with students engaging in Q&A sessions and mock interview simulations. The outcome of the program was highly beneficial, as students left with a clear understanding of career pathways, essential skills for job readiness, and the confidence to pursue their professional goals effectively.
