Calculator models NOT present in the list will be permitted **ONLY IF** they satisfy the following conditions:

- ***Calculators should not have a graphing mode.***
- ***Their display must not have more than four rows for any function like matrix mode.***
- ***Calculators should not contain integration button/equation solver function.***
- ***Should not have stored physical constants (e.g. gravitational constant) in their inbuilt memory.***

No further appeal or representation in this regard will be entertained.
